

## IEMA Environmental Sustainability Skills for the Workplace

We are facing a climate emergency that requires an urgent change to how we all do business. Transform the way you work with IEMA Environmental Sustainability Skills for the Workplace.

# Environmental Sustainability Skills for Managers

This two-day course is intended to support managers and supervisors from any industry in understanding the strategic and operational implications environmental sustainability has on them, their team and department.

This course builds on the knowledge learned on the Environmental Sustainability for the Workforce course, with greater focus on the details, giving managers and supervisors the tools to implement their broadened knowledge and skills.

# This is ideal for team leaders and managers who want to oversee organisational improvements in environmental sustainability.

- Implement organisational improvements by understanding the strategic and operational implications of environmental sustainability.
  - Build on existing knowledge and really drill down into the detail, gaining tools to implement your broadened knowledge and skills.
  - Reassure leadership that you have the skills to deliver practical change and improve business resilience through streamlined efficiencies.
- 

## Benefits for learners

This course is taught by IEMA-approved trainers and you will be assessed via online multiple-choice exam at the end of the day's learning.

- Progress your career with an official certificate that demonstrates you have the knowledge to lead on the agenda and working practices in environmental sustainability.
  - Gain tools and resources to support your responsibility to create measurable sustainability impact.
  - Ensure your team and organisation are compliant with legislation.
  - Interact and engage with practical activities and workshops throughout the day, which make for an interesting day of learning.
  - Reduce the use of energy across your team and organisation to reduce your bottom line.
- 

## Benefits for employers

This course is taught in-house by IEMA-approved trainers and employees are assessed via online multiple-choice exam to demonstrate their new knowledge.

- Increase your profit with cost savings in waste, recycling and consumption through improved leadership.
  - Gain advantage over competitors when tendering for business by demonstrating your leadership in sustainability.
  - Improve management of environmental risks and protect your organisation's reputation.
  - Learn how to manage ISO 14001 to engage stakeholders and staff while embedding environmental management into your business processes.
  - Empower the non-environmentally focussed parts of business who can really drive change.
  - Increase in employee engagement and improve culture in the knowledge that they are working in an environmentally conscious organisation that develops its leadership.
- 

## Learning outcomes

On successful completion of this course the learner will have the ability to:

- Evaluate drivers for change and barriers.
- Apply knowledge and understanding to baseline data to monitor and improve performance.
- Apply knowledge of environmental sustainability across the value chain.
- Demonstrate the importance of implementing resource efficiency.
- Demonstrate how employees can improve environmental performance.
