

IEMA Environmental Sustainability Skills for the Workplace

We are facing a climate emergency that requires an urgent change to how we all do business. Transform the way you work with IEMA Environmental Sustainability Skills for the Workplace.

Environmental Sustainability Skills for the Workforce

This concentrated, introductory one-day course provides learners with a practical introduction to environmental sustainability, ensuring they are equipped with the knowledge, understanding and motivation to create measurable sustainability impact within their organisation.

This course is perfect for those working in any job role across all sectors at an operational level.

- Rapidly upskill your workforce to increase performance, efficiency and impact.
 - Reassure leadership that you have the skills to deliver practical change through streamlined efficiencies.
 - Position your business to win additional tenders through more aligned compliance and dedication to sustainability.
-

Benefits for learners

This course is taught by IEMA-approved trainers and you will be assessed via online multiple-choice exam at the end of the day's learning.

- Progress your career with an official certificate that demonstrates you have the basic knowledge of the agenda and working practices in environmental sustainability.
 - Feel confident that this is the perfect first step to increasing your environmental knowledge as no prior knowledge is required.
 - Improve environmental performance and compliance in your organisation with the knowledge learned on this course.
 - Interact and engage with practical activities and workshops throughout the day, which make for an interesting day of learning.
-

Benefits for employers

This course is taught in-house by IEMA-approved trainers and employees are assessed via online multiple-choice exam to demonstrate their new knowledge.

- See immediate long-term business benefit by upskilling your employees to improve environmental performance and compliance, making the business more resilient.
 - Learn how to use ISO 14001 to engage stakeholders and embed environmental management into your business processes.
 - Increase your profit with cost savings in waste, recycling and consumption through a skilled workforce.
 - Tailor the course to suit your individual company needs.
 - Avoid or reduce prosecutions and litigation because of higher levels of compliance.
 - Demonstrate your commitment to sustainability to enhance your brand, become more competitive and attract the best employees.
-

Learning outcomes

On successful completion of this course the learner will have the knowledge and understanding of:

- The main environmental and economic risks and opportunities.
- Compliance obligations and business drivers for change.
- The main potential impacts on environment and sustainability.
- How to improve environmental performance.
