

# IOSH MANAGING SAFELY IN RAIL

This IOSH Managing Safety in Rail course has been **specifically created for those working in the rail industry who are required to manage safety** and effectively in compliance with their organisation's policy, best industry practices, industry standards as set out by the Rail Safety and Standards Board Ltd. (RSSB), and the industry regulator - Office of Rail and Road (ORR).

Rail operations involve inherent risks and challenges, making safety a paramount concern. This tailored course **equips individuals with the knowledge and skills to manage safety effectively in rail environments**.

By obtaining this qualification, individuals demonstrate commitment to maintaining a safe working environment, reducing accidents, and protecting both employees and passengers.

This course has 22 hours of study time required.

This course is typically completed within 2 weeks.

You have access to this course for 6 months from the date of enrolment.

This course is designed for supervisors working within the rail industry
